

HOW TO : FOLDED MINI BOOK

STEP 1 :

Gather supplies. You will want two envelopes of the same size (mine are size A2 and semi transparent), approximately 6 sheets of different paper (sized 5.5x8.5 inches), ribbon or string, adhesive, a hole punch.

STEP 2 :

Slide a piece of paper into one of the envelopes. It should fit snugly and stick out as shown.

STEP 3 :

Stick the flap of the second envelope behind the paper already inside the first envelope.

STEP 4 :

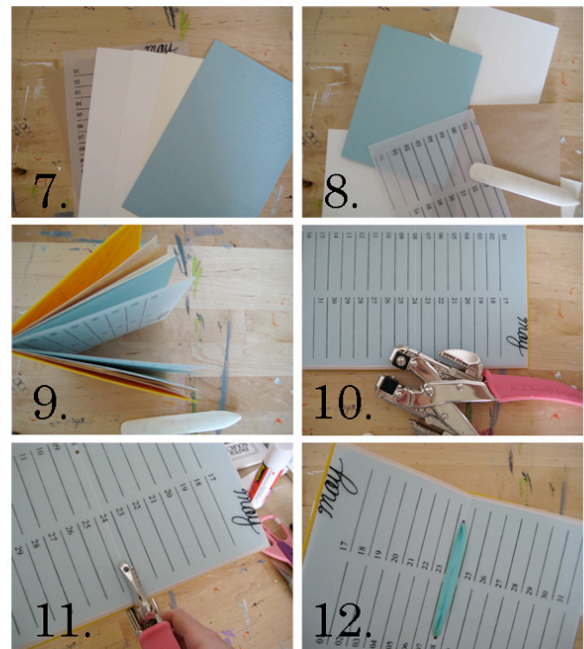

Your cover should look like the image shown with the patterned paper tucked into each envelope.

STEP 5 :

Fold your cover in half. The flap that is not tucked into an envelope should stick out.

STEP 6 :

Add adhesive to the envelope flap and "seal" it to the back of the other envelope. You should now have a book cover!

STEP 7 :

Gather various papers and cut down to 1/4 inch smaller than your envelope width. If you are using A2 envelopes, this would be 5.5x8.5 inches or half of an 8.5x11 piece of paper.

STEP 8 :

Fold your papers in half the short way.

STEP 9 :

Open up your folded papers and layer them within each other and within the envelope book cover.

STEP 10 :

Flatten your book out.

STEP 11 :

line up your pages and using a hole punch, punch through the book pages on the folded crease.

STEP 12 :

String a piece of ribbon or string through the holes. Tie in a bow on the outside of the book.
